

Kelin waterborne epoxy grout is a high-performance, water-based adhesive used for bonding tiles in various applications. It is known for its durability, resistance to water, and ease of application. The grout is suitable for use in areas such as toilets, corners, edges of baths, skirting lines, mosaic tiles, floor tiles, ceramic tiles, and kitchens. The grout is applied in a consistent manner, ensuring a strong and long-lasting bond between the tiles. Kelin grout is a reliable choice for tile installation in both residential and commercial settings.
